Subject: Burley asbestos site visit 7-18-2018
Attachments: ATT00001.txt

Good morning, Stephen,

I stopped by the Burley asbestos demolition site on the morning of July 18, 2018. The photos I took during that visit are attached. Though there were sprinklers in place, the site appeared to be dry. I did not see any indication that the sprinklers had been in use recently.

Please let me know if there are any questions.

Thank you,

Tiffany S. Bowman
